Workshop : Regression to Progression

My experience with this workshop has been amazing. I'm having immense clarity about my purpose on planet earth along with faith to flow with it. I feel as if I'm operating from a completely different zone which is complete by itself and there is sense of peace as if come home after long time. It's a lovely experience and I'm here to joyfully spread this completion to others for the rest of my life. I thank Dr. Neeta Yuvraj and Dr. Yuvraj Kapadia and the universe for facilitating this beautiful process for me
