Workshop : Erase

Published by [laoladmin](#) on 2009/12/7

Hello there ,

I'm here to say that the workshop erase has helped me to bring in a humongous change and shift in my life.

Although i may say the people around me changed but I know because I confronted the most traumatic issues of my life n erased them from my life was i able to move onin desired direction with support and patience n allowance from my family....and with your help.

Thank you Dr.Yogesh for being the guiding light in my life. Had u not conducted the workshop n given me the maximum footage to solve n resolve the issues of my life .I would still be moving around in circles with the same unpleasantness that was unresolved till then.

I'm indebted to u and the whole group that was present for the two days of erase who let me be the star of the event.....and they..... my costars esp during the family constellation. VERY SWEET,all of you.

Thank u once again.

-Loven blesses alwaysMamta.
